

## **EXPANDING OUR WORK AND BUILDING A HEALTHIER COMMUNITY A PLACE TO TURN CAPITAL CAMPAIGN**

### **CLIENT TESTIMONIALS**

#### **Elvis**

“Going back inside (the building) would mean a lot to me knowing I finally get to start choosing my own dry food again like I have in the past before you guys closed the indoor food services. It also makes me happy to know that in the frigid winter I won't have to stand in line for 40 minutes outside.”

#### **Wendy**

“Going back inside A Place To Turn would mean a lot to me actually, I have stopped coming to A Place To Turn since September due to the coldness of the winter, and having to wait in long lines outside for the entire visit. If services were brought inside, it would also make me feel more comfortable, and give me the same experience I used to have in the past as if I were shopping in a store.”

#### **Cinthia**

“A Place To Turn going back inside would be great, that way I can make my own choices regarding what type of food I would like to have, however, due to the pandemic I understand that bags come pre-packed due to the outdoor service that you guys are doing. Also, it would definitely give me more privacy during the check in, because there are some times where I feel like I have to whisper just to update my family info, or give out my name and date of birth. I hope one day I can go back inside to shop.”
